

Ancient Beauty – Exotic Essences – Timeless Pleasures

“Our philosophy is simple, we believe in people; together we live and take care of each other.”

“Our reward is the learning of the laughs and smiles from each other, touching hearts and helping lives by creating the world’s most natural products possible.”

All our products and services are created in mind of the increasing demands for exotic, natural and effective ancient formulations adapted to modern knowledge.

The world is changing; we believe that through education, responsible business and sustainable development we help make the world a better place.

It has taken more than 1,000 years to rediscover Phytotherapy () and its vivifying and regenerating aspect for today’s new age skin care.*

Known as a powerful energy booster and tonic, incontestably good for moral, Chocolate, in particular dark chocolate which is rich in cacao and abounds in nutritive elements which bring to the skin benefits without comparison. More than candy bars and fireside cacao drinks, with external use, it causes an instigating effect, becoming a stimulant and tonic towards all of the body. As of this application, its rich velvety texture creates a warming sensation of chocolate euphoria and heavenly softness for the skin and spirit.

()Phytotherapy is a form of medical treatment which relies on the use of plants, either whole or in the form of prepared extracts and essences.*

For thousands of years, plants were a primary source of therapeutic medication for many civilizations all over the world.

Dermawraps “Chocoliva” Body Envelope 220ml

Total chocolate indulgence made with the finest Belgian chocolate; filled with polyphenols, catechins anti-oxidants which contribute to reduction in UV sensitivity, along with certified organic (first-pressed) olive oil, Japanese green “Macha” tea and Nordic kelp from the coldest Canadian waters. This body wrap envelop can be used towards cellulite treatments, circulatory stimulation, vitality boost, humor booster, anti-stress, anti-age and detoxification treatments.

Formulation:

INCI: Theobroma cacao (Cocoa) seed extract, Theobroma cacao (Cocoa) seed butter, Olea europaea (Olive) fruit oil, Beta vulgaris (Beet sugar), Camellia sinensis (Green tea leaf) powder, Laminaria digitata (Kelp) powder, Vanilla planifolia (Vanilla bean) powder, Phosphatidylcholine (Soya extract)

Body Envelopment: Method of Application (Chocoliva) User’s manual **Part 1**

Pre-requirements:

- (1)** Ensure person showers prior to treatment removing all traces of makeup, perfumes and other debris. *Ideally offered is a body exfoliation using Dermakore’s Derma scrubs prior to body wrap.*
 - (2)** Provide prior to Dermawraps treatment a sanitary nap, light loin cloth, dispensable loin undergarment or Gibson sheeting.
 - (3)** Ensure person is not known towards allergies of nuts, chocolate or of any of the listed natural ingredients used in Dermakore’s products. If unsure, do a small skin patch test to verify if allergic reaction is present.
 - (4)** Ensure person is not claustrophobic, hypertensive, manic-depressive, has open-wounds or skin infections. Avoid application to known mucus regions of the body.
- Optional:** Offer protective hair bonnet if required. (Note: Dermawraps natural butter ingredients make an excellent protective hair hydrant as well)

Application:

Step 1: Apply a warming blanket (at body temp, *temp of blanket not to exceed 40C*) to massage area followed by cotton sheet and finally a protective plastic nap or reusable solar blanket in preparation to receive client.

Step 2: Activate Dermawraps following supplied instructions. (Use a warmer or our self-heating thermal packs - **Do Not Microwave**)

Invite person to comfortably install themselves sitting at first upon massage/treatment area.

Step 3: Using gloves and a body brush/spatula or preferred method, start application of Dermawraps mixture once warmed to 40C. Massage lightly full backside below back hairline (slightly above shoulder level) down to buttocks.

Have client turn on to backside and lightly cover to prevent heat loss. Starting with the legs, unwrap one leg-hip side at a time. Apply Dermawraps, then lightly tuck plastic sheet into inner leg, lightly cover. Precede with upper body one side at a time (Uncover one section at a time for Dermawraps application) once again to the V-Neckline finishing off with each arm snug and comfortable at their side.

Body Envelopment: Method of Application (Chocoliva) User's manual

Part 2

Step 4: Ensure plastic wrap (or thermal body wrap) is snug about person followed by a cotton sheet and warming blanket. (Once again ensure person is not claustrophobic)

Dermawraps Application Time: 30mins without heating blanket, 15mins if heating blanket is used. During application wrap-up, consider offering a facial or scalp massage.

Ensure the person is comfortable by placing a cushion or rolled towel under the nape of the neck if required. Also ensure fresh water or fruit juice for your client during wrap (avoid coffee)

(Optional) Consider an offering of Chocolate treats and fresh fruit as a tantalizing plus.

Final Stage: Start by removing covers except plastic sheet. **IMPORTANT:** Unwrap the feet only at first and gently remove excess Dermawraps with clean cloth to ensure the safety of person from slipping. Help person to their feet keeping the wrap intact.

Carefully escort towards shower area for cleansing or use Dermawraps as a thermal bath treatment for added hydration and glow burst allowing Dermawraps unique formulation to melt off into thermal bath followed by shower cleansing.

NO chemical preservatives, parabens, gmo's, sls's or artificial ingredients.

Not tested on animals.

Dermascrubs Orange Blossom Sugar Body Scrub

All natural exfoliate based on organic cane sugar, sunflower oil, chocolate, orange blossom and vanilla extracts.

Cane sugar is used to slough off dead skin, boost circulation, and smooth rough areas. Chocolate is known to tone and firm skin while sunflower oil helps to protect and moisturize the skin. Orange and vanilla extracts add to the wonderful aroma and help stimulate energy levels and senses of well-being. For the skin to remain healthy there needs to be an adequate amount of vitamins A, C, D and E all of which are found in abundance in this body scrub.

Formulation:

INCI: Sucrose, Helianthus annuus (Sunflower) seed oil, Theobroma cacao (Cocoa) seed butter, Theobroma cacao (Cocoa) seed extract, Citrus aurantium amara (Bitter orange) flower extract, Vanilla planifolia (Vanilla bean) extract

Body Exfoliate: Method of Application

Pre-requirements:

(1) Ensure person is not known towards allergies of nuts, chocolate or of any of the listed natural ingredients used in Dermakore products. If unsure, do a small skin patch test to verify if allergic reaction is present.

(2) Ensure person is not claustrophobic, hypertensive, manic-depressive, has open-wounds or skin infections. Avoid application to known mucus regions of the body.

Application:

(1) Apply sugar body scrub using light massage to all areas except face and groin regions

(2) Have client shower in preparation for next treatment (max 5mins). After shower wait 15 mins before next treatment insuring the clients comfort.

Optional: Serve your client natural teas, fresh juice or water during break prior to next service. **NOTE:** Insure that your client has visited the washroom prior to next service after serving any natural drinks in order to avoid service interruptions

NO chemical preservatives, parabens, gmo's, sls's or artificial ingredients.

Not tested on animals.
